

Ultra Wallmount Racks

Mount heavy network equipment in tight spaces.

FEATURES

- » Heavy-duty rack is designed for tight spaces.
- » Just the right size for mounting heavier, deeper networking equipment. It holds 68 kg.
- » Feature 12-24 mounting holes and includes 12 12-24 x 1/2 inch screws.
- » Self-squaring design simplifies installation.
- » Provide 11U or 19U of rackmount space.
- » The rack swings open to the left or right for easy access to equipment and terminations.
- » The 25-inch depth provides plenty of room to open and close the rack, even when it's fully loaded with patch panels, hubs, or routers.
- » Mount 19-inch equipment to the wall without losing access for moves, adds, and changes.
- » A steel reinforcement pan on the bottom adds strength to the rack.
