

Cost-Effective 4K Desktop KVM Switching for Professionals

The KVD200-2H KVM Desktop Switch lets you control two computers from a single set of keyboard, mouse, and peripherals. It supports both HDMI and DisplayPort and outputs video signals up to 4K at 60 Hz to one or two HDMI monitors.

Competitively priced, the KVD200-2H Desktop Switch is an ideal solution for professionals that need to control two computers (for example, a laptop and a desktop computer) with one keyboard and mouse.

With support for USB 3.1 and USB C 3.1 peripherals as well as speaker and microphone audio, the switch helps you maximise productivity in the most demanding creative applications, including 3D and graphics design, video production, software development, or professional video game development.

Benefits and Features

Desktop KVM Switching for Two Computers

Switch video, keyboard and mouse, as well as high-speed USB 3.1 and USB C 3.1 signals between two computers.

Display Up to UHD 4K Video on Two Screens

Supports (2) DisplayPort and (2) HDMI inputs and (2) HDMI outputs (to screens) up to UHD 4K at 60 Hz (4:4:4).

High-Speed USB 3.1 Support

Two USB 3.1 Gen. 1 ports and one USB Type-C 3.1 port support high-speed peripherals such as storage devices, flash drives, cameras, and more.

Switching Made Easy

Supports switching via pushbuttons and keyboard hotkeys.

HDCP 2.2 Support

Allows streaming 4K video from online streaming platforms such as Netflix, YouTube, Disney + over the computer.
